

What has become of the baseball club? Quite a number of harvesters were sold to Sedgewick county farmers yesterday.

The next regular meeting of the county commissioners will occur on Monday, July 7.

Chas. Schmitzer is having a new awning put up in front of his Douglas avenue meat market.

The wheat harvest will begin this week and in ten days a thousand self-binders will be running.

Sedgewick county script is now, and for the past eight years has been worth its face in currency.

The Wichita wholesale grocery house is putting up a frame around the full length of the front of their store.

Several private schooners loaded with railroaders, men and their families, passed through Wichita yesterday.

The pay car of the A., T. & S. F. road disbursed money to about one hundred employees in this city yesterday.

Murray Meyers says his corn in Atchita township is in tassel, and it will not be long until he will have reaping ears.

Capt. J. B. Cary has the foundation laid for a fine brick residence, on Lawrence avenue, opposite the new residence.

An immense lot of goods are being shipped to the adjoining towns by the Wichita wholesale grocery house.

Pat Miley, Wm. Devlin and Thos. Fitzgerald, were each assessed \$5 in the police court yesterday for getting drunk.

New awnings are being put up in front of J. M. Allen & Co's, J. P. Allen's and John Fisher's stores on Douglas avenue.

After contributing \$10 to the city funds in the police court yesterday, Josie Little was allowed to go her way and sit out more.

Superintendent Hammond was out at Cheney and Goodland Monday, taking the military steps towards organizing a school district at those places.

The case of Thos. McCampbell et al., vs. N. K. Jones, is now occupying the attention of the district court, a jury having been impaneled about noon.

The foundation will be commenced today or tomorrow for Mr. Black's new brick block, to be erected on the corner of Douglas and Topoka avenues.

The W. C. T. U. hereby tender their thanks to C. V. Eckardt for his favor in sending the Emporia Daily Republican to their reading room in this city.

Mr. A. J. Henley, the artistic painter with Vincy, will commence today painting a very handsome glass sign on the windows of Joseph & Thomas' real estate office.

Farmers tell us that there never has been a time in the history of Kansas when the fruit trees were so heavily loaded as at the present time; this is especially true of peach trees.

The following figures will show the receipts and disbursements at the county treasurer's office up to the hour of closing business yesterday: Receipts, \$1,886.67; Disbursements, \$65.

Rev. T. W. Woodward will preach at Russell hall, in this city, next Sunday evening at 8 o'clock. Subject: "Liberty and Love." A cordial invitation is extended to everybody.

We were off a little in a recent issue in saying that oats would be harvested next week. It will be two or three weeks yet before they are ripe, but they have headed out remarkably heavy.

Monday night a very heavy rain fell about five miles east of here, which raised the water in Gypsum creek about four feet, and made the ground so wet that farmers had to cease cultivating their corn.

Within five years Sedgewick county will lead all other counties in the state in population, and within ten years she will lead the state in wealth. This is not a bluff. Mark the dates and note the prediction.

The out crop of Sedgewick county is simply immense and immeasurable. No approximate estimate can be made of the probable yield. The crop will be ready to harvest before the wheat is fairly out of the way.

Mr. F. Mark and son have gone to Clearwater, where they propose establishing a carpenter shop. These gentlemen are class fine mechanics, and we trust they will meet with liberal orders in their new location.

Joe Rife, of Illinois township, brought to the city yesterday sixty-eight head, twelve wagon loads of very fine hogs, which averaged about 185 pounds. He disposed of them to Geo. Byers for \$1,271 per hundred pounds.

Two cub bears came up from Wellington Monday by the Wells, Fargo & Co. express. They were consigned to Winfield parties. While at the office here they attracted considerable attention and kept up a constant fight, much to the amusement of the small boys.

The citizens of Douglas are making extensive preparations for sowing the eagle for the Fourth. Among other attractive features of the day will be a G. A. R. camp fire, battery of artillery, glass ball shooting and boat race, and extensive fireworks at night.

We would suggest to the city fathers the propriety of taking some steps towards numbering the houses in Wichita at the next regular meeting of the council, which will take place Monday night. Nearly every one, property-owners and all, would favor such a step.

The ballots cast at the railroad election held in Waco township Monday, were turned over to the county clerk yesterday. The proposition of voting here was defeated by fourteen ballots. The county commissioners will meet in special session Friday for the purpose of making the official count of said votes.

The last half of the tax for the year 1888 is due and payable on the 20th inst. If not paid by that date, a five per cent. penalty will be attached. Farmers are aware of this fact, and as a consequence are coming up to the treasurer's office and settling as is evidenced by the daily receipts at that office published elsewhere.

At the dedication of the Methodist church at Cartwright, last Sunday, a subscription of something over \$1,000 was raised. The church cost \$1,750, the payment of which is now mostly provided for.

Mr. V. C. Cartwright was in the city yesterday collecting subscriptions to the church, and we are pleased to say, met with very fine success.

Yesterday morning considerable amusement was afforded to a large crowd, which gathered on the corner of Main and Douglas to witness the antics of a barker young team of horses belonging to J. T. Holmes.

Mr. H. handled the ribbons and the more he drove his horses the more they didn't go. In fact they greatly resembled the Democratic party. They weren't much on going ahead, but they were lightning on going backward.

Mr. A. C. Brokaw, for a long time one of the proprietors of the Arkansas River lumber yard in this city, and who sold his interest to H. L. Peck, of Oskosh, Wis., is about to leave for Washington territory where he will make his future home. We are sorry to lose Mr. B. from our business circles, but hope he will meet with much success in the far west. Mr. Peck, his successor, has the appearance of an energetic young business man, and will undoubtedly find his investment in the lumber trade in this city a paying one.

Yesterday a farmer living about thirty miles from the city sold his farm and was paid the cash for it, at the register of deeds' office—he receiving \$2,450 in greenbacks. He proceeded to roll them up in a paper, making a bunch half as large as his head, and went carefully walking about town with them in his hand. Had it been in any other city than Wichita he would probably have been robbed before he got three blocks away.

Mr. F. N. Miller, formerly of this city, and now of Butler county, returned some time since from a prospecting tour in the southwestern counties of this state. He is entirely satisfied with his observations, and is now on his way back with the intention of prospecting land in Edwards county. Mr. Miller says that those counties will in time prove valuable feeders for Wichita, and that even now the prairies are dotted with miles with the tents of settlers.

A very fine photograph of the ruins of the St. Nicholas hotel, which burned in St. Louis the 4th day of last January, can be seen in the window of Vincy's paint shop. It is a very fine picture, showing the almost superhuman efforts of the fire department to save life and property, at a time when the thermometer was twenty-seven degrees below zero. Several of the firemen are represented as frozen fast to the ladders, where they remained until cut loose.

In the matter of a plucky farmer our representative probably heard but one side of the story. The hundred men were not afraid of being slaughtered, but the overseer had positive instructions to trespass on no place when ordered or requested not to do so. Mr. Freeman said that no man must go to work on his place until he had pay for the land, but the truth is all legal arrangements had been made to pay the condemnation price as soon as the sum should be locally determined.

Further County Index: We are not inclined generally to recommend a Republican newspaper as good for anything, but will break the rule now and say that the Wichita Daily Eagle is the only daily that takes the Associated Press dispatches that reaches here the same day it is published. It publishes all the important news of the day, and is distributed here twenty-four hours before any other daily paper. Subscription price, one month, 75 cents; three months, \$2; six months, \$4; one year, \$8. Address M. M. Murdock & Bro., Wichita, Kansas.

Cheney Journal. W. S. Rogers, photographer from Wichita, came out one day last week, bringing his instruments with him. He took forty negatives of stores, residences and general view. On his return this week he sold over a hundred dollars worth of pictures. Mr. Rogers is an enterprising business man. His apparatus is new and comprises all of the latest inventions and appliances used in photography.

Whenever anything new comes out he is sure to get it, and in this way he will continue to lead as for the last two years he has led, the photographic business of this part of Kansas.

SAFE ROBBERY. The lumber office of J. T. Carpenter & Son, in Valley Center, was burglarized at about two o'clock Monday night, the thieves effecting an entrance to the store by prying the front door from its hinges.

The combination lock to the safe was broken off, evidently by the aid of a sledge hammer taken from a blacksmith shop near by. The lock was forced back by means of a cold chisel, and powder put into the crevice and the steel front blown off, making the sliding of the bars and opening of the safe an easy matter.

From a small drawer was taken fifty silver dollars, five dollars in small silver and three five dollar bills, besides notes amounting to about \$800, most of which were drawn in favor of Carpenter & Son. The burglars went through a lot of other papers, overlooking one note of \$1,000. Dwight Beach and his brother, the latter employed in the office, who live only a few rods from the place of the burglary, heard the explosion and hastened to the office, but on reaching there they found the door resisted their efforts to enter, and as all was quiet, returned home again, thinking that they might have been mistaken. Dr. J. F. Richardson, who occupies an office near, was up until a late hour seeing a patient, and coming home rather tired, went to bed, and was not awakened by the noise. It is thought that the thieves were in the office when the Beaches went there, and that they held the door from the inside. Nothing further was thought of the affair until yesterday morning, when young Carpenter went to the office and found things as above described. There is no clue to the burglars.

WE WILL CELEBRATE. At their meeting last evening Garfield post G. A. R. fully determined to take immediate steps towards a Fourth of July celebration, and now that they have taken hold of it, we can confidently look forward to a fine time on that day, as the G. A. R. boys do not do things by halves. They were somewhat disappointed in not securing the Riverside park as the place for holding the celebration, inasmuch as the proprietors of the park had signified his willingness to let his grounds, free of charge, for that occasion.

Yesterday, however, when he was called upon by Col. Stewart, he seemed to have forgotten his former intentions, and wanted to charge the G. A. R. \$100 for about one-third of the park, and that portion which was there are no seats or stands, and as a consequence the old soldiers are hot, and say that they can find some place out of doors, where they can have a picnic on the Fourth and not be required to pay \$100 for the privilege, and we guess they are about right.

A. C. L. OF M. COLORED. The colored Masons of this city have perfected arrangements for a grand entertainment to be given on St. John's day, June 24, 1888. Among the most interesting features of the occasion will be a brilliant street parade at 6:30 o'clock in the evening. The procession will form on the corner of Douglas avenue and Main street, marching through the principal streets to the opera house, where the masses will be treated to addresses by J. M. Brown, of Mississippi, and others. There will be music, toasts, etc., by local and other talent. Ample refreshments will be served, and the day's exercises will conclude with a grand ball. The committee of arrangements is composed of the following gentlemen: C. A. Clark, John Bell, Albert H. Brown, Joshua Robinson and Joseph R. Brown. George Turner, secretary and Thomas Oliver W. M.

OFFICERS ELECTED. At a regular meeting of the Turnverein society, held at the opera house Monday evening, the following officers were elected for the coming six months: A. Wagner, president; Otto Koppin, vice-president; A. Wiegand, secretary; Henry Bolte and Joe Gerties, trustees; John Weissenpluh, janitor. First commander, George Kruentz; second commander, Fritz Schmitzer; manager of opera house, Geo. Kruentz; trustee (but not elected) Jack Bissinger; committee on entertainment, Henry Bolte, John Bratsch and Fred Schmitzer.

Carthage H. Walker to J. W. Mead, 80 acres in the S. 1/2 of the N. 1/2 of 21-21-17, \$1,000

OKLAHOMA.

General Hatch Came Down to the Territory With Orders to Remove the Boomers.

The associate dispatches of last week announced that General Hatch had made a report covering the entire situation in the Territory. Monday night this paper was informed that General Hatch had received his orders touching the settlers. The general went through this city yesterday morning. From U. S. Deputy Marshal Williams who accompanied the general down to Caldwell, and who, in company with United States Commissioner Searman, returned last evening we learn the following facts: Mr. Williams says that Gen. Hatch said that his orders were positive and mandatory. He will proceed with such force as he may deem necessary to remove every man now within the territory who is without a permit to remain, after which one will be permitted to cross the line, except such as are armed with a proper passport. Camps are to be established at Caldwell, Hume, well, Arkansas City and Coffeyville and a full company of soldiers stationed at each. The general further said in case there was any armed or other forcible resistance it would not be well for those concerned, as such an attitude would be attended with the gravest results, even though not a single shot was fired upon either side. So far as Marshal Williams could learn it is the intention of the department to absolutely prohibit any further attempt to settle the territory until congress shall have taken some definite action, either sanctioning the settlement or prohibiting it altogether.

General Hatch was asked what would be done with reference to the Texas border, he replied that there was no danger from that quarter, the settlers down there lacked the enterprise or were wanting in that spirit of adventure which characterized the boomers.

If there is any mistake in the facts as set forth above, then Mr. Williams failed to understand the import of the general's conversation, for it is just as given to us.
